

GP EARTHWORKS

Site Dump Hire

Site Dumpers

Site dumpers feature a skip that can be rotated through 180 degrees for easier loading/unloading and minimising the difficulty of working in confined spaces by cutting out the need to direct the dumper.

- Built for heavy-duty applications
- 4WD / Power steering
- Precise skip control
- Central seating giving optimal visibility
- ROPS frames fitted to all machines as standard

About Us

GP Earthworks is an earthmoving and plant hire business located on the Sunshine Coast, Queensland. Our business is established on the principal of supplying a friendly, first class service with quality equipment at competitive rates.
